TOWN IS URGED TO CLIMAX WAR WORK

Should Stage a Demonstration of Welcome Worthy of Our Returning Warriors.

SUGGESTS JULY PAGEANT

States Object of War Community Work. Gives Plan for Demobilization of Service Flags.

"Gettysburg's great opportunity to put a climax on War Activities is right before it. The returning soldiers deserve a welcome worthy of their sacrifice and this community, which accomplished great things in the carrying on of the war, should stage an immense demonstration as a climax of war work activities."

Joseph L. Garvin, director of War Camp Community Service Work in Dauphin, Franklin and Adams counties, brought this message before a large audience at the community sing held in St. James church, Sunday night.

Mr. Garvin has plans on foot for giving a pageant on July Fourth in honor of the men who have returned from military service. He has suggested that the history of Gettysburg be given in various sections by the Seminary, College, High School, and various lodges and other organizations from their founding until the present day.

The history of the part that Gettysburg and Adams county boys took in the present war would, of course, be the most important and spectacular part of the program.

Mr. Garvin also suggested the demobilization of service flags by pinning a silver stripe over the stars of returned soldiers and sailors, until all had been demobilized and then have the flags taken down. The gold stars would be made into a separate and permanent flag.

He praised the community sings as one of the best things Gettysburg is doing to build up the community idea. He is particularly anxious that the people of Gettysburg take an interest in the W. C. C. S. house on West Middle street.

In his subject "The Purposes and Ideals of the War Camp Community Service", Mr. Garvin answered three questions, "What is it? What is its object? What is its program?"

As a definition he said, "It is a movement, not an organization, in society for the purpose of creating within the society an outlet for its own life. It helps the community to see itself."

"Its first object was for the purpose of putting morale into the soldiers' life by surrounding the camp with hospitality. Since the movement has been started it has been found that the community has gotten even more out of it than the soldiers. The work has spread having been good both for the soldiers and the community."

Speaking under the sub topic of "what is its program?" Mr. Garvin said, "It helps the towns to organize for a big welcome demonstration for the returning soldiers." He urged that the people of Adams County welcome soldiers returning alone without their division by giving parties in their honor.

He also said that sings were being held everywhere to welcome returning soldiers and sailors and that Cincinnati has organized ten thousand children to sing during their big demonstration.

The War Camp Community Service helps in reconstruction work as it aids returning enlisted men to secure their former employment or new positions. In fact it is doing everything possible for the comfort and aid of the home coming soldier.

Musical numbers on the program were two selections by the College Quartet, solos "Annie Laurie" by J. W. Drawbaugh and "America for Me" by Miss Reba Miller.

MAJOR SIEBER ON WAY TO STATES

Has had Brilliant Military Career. Won Majority by Front Line Experience.

Dr. Paul R. Sieber, son of Rev. Dr. and Mrs. L. L. Sieber, of Baltimore, Maryland, formerly of Gettysburg, is reported having embarked from a French port with his Hospital unit No. 27 for the U. S. and will arrive in the near future.

He enlisted July 1917 from Mercy Hospital, Pittsburgh, with Hospital Unit No. 27 constituting about 125 doctors, nurses and attendants. He was commissioned as Captain having occupied the position as chief surgeon and lecturer on surgery to the Pittsburgh University students. The unit was located at Angers, France, where one of the largest Base Hospitals of France was developed.

Dr. Sieber, having filled the position of chief surgeon at Base Hospital No. 27 during his entire period in France, was by virtue of his services commissioned Major, although he was eight years under the age limit for that position under the regular military rules.

Dr. Finney, Major General of the American Medical Forces in France, specially commissioned Dr. Sieber on three different occasions to go to the front amidst the severest drives of the enemy, to get experience and first hand information.

More than 17,000 wounded passed through the hospital at Angers during Major Sieber's incumbency.

PAY CLAIM OF SOLDIERS

Advised not to Place Claims in Hands of Agents.

Officers and enlisted men discharged from the service will not expedite settlement of their claims for arrears in pay by placing them in the hands of attorneys or claim agents, said a statement issued Sunday by the War Department. It was explained that adjustment of claims thus presented was delayed "by reason of additional filing and handling of unnecessary papers of the intermediary."

"The claim of the soldier is all that is required," said the statement, "and such claims should be submitted directly by the discharged officer or soldier to the War Department, director of finance, who will give them as prompt and careful consideration as possible. Any fee paid by the soldier to an attorney or claim agent is a needless expense."

COMMUNICATED

At the present time there is quite a bit said about our boys' entertainment, but how about the encouragement of our boys to get an education and to be clean and good men? If there were a few kind words and advice given in a way that touches boys and helps them to attain the great things of life and not so much athletics and social entertainment would it not be better?

Our boys at the dangerous age of fifteen and sixteen, because of their being slow to grasp and perhaps without the proper explanation of their weak branches, are told in some cases that they can get certificates of labor. What is sadder than that? Often boys are slow to see their mistakes of not studying properly. Yet do we not pay our professors and teachers good salaries to help those who need it and not turn them out?

We as parents need to make our homes more a place of sociability and our boys will not want to leave them so easily. And what about the boys whose parents are unable to pay a \$5.00 entrance fee to a club and \$1.00 a month? They are the ones who will be discouraged and want to leave school. The boys who join a club have homes that can afford sociability where the poor cannot. If the parents would hold social gatherings in the home it would help hold our boys.

We parents as heavy tax payers ask that more patience be paid to the great need of our children's education and fit them for a business life as well as a social one.

POST-WAR TIMES ARE SIMILAR

Say Local Residents who Saw Civil War End. Problems are the Same.

HORSE STEALING EPIDEMIC

Many Adams County Soldiers were Forced to West for Employment. Industrial Conditions Better now.

Are post-war conditions in Gettysburg now different from the conditions which existed in this section at the close of the Civil War? is a question which is being asked by many people and which is puzzling those in close touch with large affairs.

Men who lived in Gettysburg more than fifty years ago and witnessed the problems which confronted the returned soldiery and citizens of this community believe that conditions are and will continue to be for several years practically the same as those of fifty five years ago. The spirit of unrest which prevailed during the recent war was felt in the sixties and the problem of returning to normal ways of living is much the same as at that time.

The problem of absorbing into civilian life the home coming soldier will not be as difficult here as in '65 according to the belief of an old life-long resident of the town. At that time and before the Civil War, Gettysburg was one of the prominent coach manufacturing towns of the state.

In 1860 there were seven large carriage plants in operation here, the great bulk of whose business was done below the Mason-Dixon line. When the war started the demand for coaches stopped, debts contracted in the south were not paid, with the result that many of the local firms were ruined and all were forced to suspend operations. There were also three tanneries doing business here but they employed comparatively few men.

When the soldiers returned after peace had been declared, they found the jobs they had left no longer existed, business was at a standstill in Gettysburg. It is said that during one spring one hundred and eighteen young men left Adams county to seek employment in the west. Gold discoveries in California in 1848, which were just being developed materially hastened the westward movement. Local business did not pick up until 1884 when the Reading railroad was built. It is not probable that such an industrial condition will confront the men when they return this time in large numbers. At the present rate of return of twos and threes, the community hardly realizes any difference. But with the home coming of the 79th Division in which there is a great number of Adams county men the question of employment may be one slightly difficult to answer.

A parallel to the outbreak of crime which was felt throughout the country recently was experienced after the Civil War in an epidemic of horse stealing. Many horses in the county were carried away and never recovered, although James Rouser, then policeman of Gettysburg, made a state-wide reputation for himself by capturing a great many thieves. His efforts resulted in placing professional criminals behind the bars. Most of the thefts were made by gangs of yeggs from the cities who carried on a systematic campaign throughout this section.

Tracing stolen horses was made difficult because of the fact that Confederate soldiers had taken large numbers of the farm horses in the county when they retreated southward after the battle and left in their places abandoned army horses. With the county full of strange animals, the identification of missing horses was almost impossible. The horse stealing epidemic and the petty crime wave that accompanied it lasted but a short time.

Whether or not the war is responsible for the recent crime epidemic is a question in many minds. Men, who have been fortunate enough to live through both times, point to the great similarity in the two post-war periods as proof that the war was at least partially the cause of the recent outbreak of lawlessness.

CLOCKS GO AHEAD ON MARCH 30

Railway Administration Issues Orders for Setting Forward of Timepieces.

Instructions for the setting forward of railroad clocks and timepieces on March 30 have been issued by the Railway Administration.

The instructions are based on a report of the committee on transportation of the American Railway Association.

"At 2 a. m. Sunday, March 30, and on the last Sunday in March each year thereafter," all clocks and watches in train dispatchers' offices and in all other offices at that time, must be advanced one hour. Employees in all open offices must then compare time with the dispatchers. Each railroad is instructed to make detailed instructions to cover the changing of time so as to conform to local conditions.

The order includes instructions for turning the clock back one hour on the last Sunday in October, and is to remain in effect so long as the law is on the statute books.

Efforts during the closing hours of the last Congress to kill the "daylight-saving" failed.

LECTURE TO-NIGHT

Luther D. Wishard will Lecture in St. James Chapel.

Luther D. Wishard, who inspected the battlefield under appointment of the War Council by the request of President Wilson, will give a lecture with stereopticon views on "Messages from the War Zone," in the chapel of St. James Lutheran church at eight o'clock this evening. The views will illustrate the cure of gas burns, the devastated area, and the re-education of the blind and maimed.

The sweetest love song of the war will be sung by Glenn Stauffer and John Grindler.

In order that special war problems may be freely discussed children under sixteen are not invited.

HARDLY KNOW THE WAR HAS ENDED

Tank Corps Corporal, Homeward Bound, Writes from French Sea Port.

EXTRA TROOPS ASSEMBLE

Car Trip is Worst Part of Journey Located in Vineyard Section. Box Toward Home.

Corporal E. A. Ross, Company C, 302nd Tank Corps Battalion, who spent some time at Camp Colt and is well known here, wrote the following letter from St. Laurent, France.

"We have been moving since I last wrote and are now billeted in the village of St. Laurent about fifteen miles from Bordeaux. We came here thinking we would proceed at once to the States but have been here over a week now and, as the entire area hereabouts is filled with troops homeward bound and the sailings are rather slow from this port, it is very indefinite as to when our turn shall come.

"It seems to be the idea to assemble all surplus troops in the base port areas in order to lessen transportation difficulties over the French railroads. In the meantime while we are awaiting transportation we are kept busy.

"With us one would hardly know the war is over for we are drilling, hiking and undergoing inspections every day. Of course it gets monotonous since the war is over but I suppose it is a good thing that we are kept busy.

"This is the southern section of France, the vineyard section, and is very different from that part of the country which we have just left. It is a richer and more prosperous country and when the sun shines it is beautiful; however, as in northern France here also is an abundance of rain.

"There are miles after miles of vineyards, and the flowers are as plentiful as the vines. The people are hospitable but as is usual the case where soldiers are assembled there are too many soldiers for the population to extend the courtesies they would like.

"As for myself, one of my pals and I have a regular home. We have been out to supper with a family twice and have accepted an invitation to go out for supper again to-morrow night. They are certainly good to us and you cannot imagine how we enjoy visiting them in their home, aside from the good suppers we had. Believe me 'tis fine to break away from army slum once in a while and enjoy some real beefsteak, eggs, omelettes, salads and other good things.

"Last Sunday the son of the family whom we visit got two bicycles and he and I went about seven miles to visit some of his relatives and friends. We had a dandy time and according to prearrangements returned to his home for dinner at six o'clock.

"We are all anxious to get back to the States. At least one of the most disagreeable parts of the trip is over—I refer to the trip to the coast which was carried out in French box car style and required three days. During this time it was almost impossible to sleep at all for no one had enough room to stretch out."

GETTYSBURG MAN HIGHLY HONORED

Fritz Hurd, Former Student, Gets Oxford Scholarship for Bravery in Action.

Fritz Draper Hurd, a member of the class of 1916 at Gettysburg College, has been given a scholarship to Oxford University by the English government for distinguished service on the battlefields of France.

He was probably the first Gettysburg man to reach the other side after the outbreak of war as he sailed in April, 1917, with a Philadelphia Base Hospital Unit.

After serving a year in the Hospital Corps, Hurd was transferred to the 103d Field Artillery where he secured a commission and fought in the battles of Chateau Thierry, Marne, Rheims, Soissons and Metz.

Lieutenant Hurd was athletic manager in his unit which held the best record of any club in the twenty six divisions. He left his regiment on March 5, 1919 for Oxford University.

Mason Hurd, a brother of Fritz, who was in the class of 1918, also took part in the big drives from July, 1918 until the signing of the armistice. He is now with the Army of Occupation at Coblenz. Another brother, William, is a sergeant in the 3d Field Artillery, France.

GERMANY WILL NOT SIGN

Any Peace Treaty which Involves Annexation of Danzig by Poland.

(By Associated Press)

Copenhagen, March 24—Germany cannot and will not sign a peace which involves the annexation of Danzig by Poland, Ebert declared in a speech Sunday, a dispatch from Berlin says.

The German press added that Germany could not give from western Prussia any part of Upper Silesia.

Ebert spoke at a meeting called to protect against the annexation of Danzig by Poland. He declared that Germany was prepared to agree to the neutralization of the Vistula which would include Danzig as a free port.

HUNGARIAN REDS DECLARE WAR

Will Fight Entente Powers. Seeking Alliance with Russian Bolsheviks.

ALLIES ARE CONCERNED

Situation Regarded Serious. Budapest Accuses Entente of Forming Revolution.

(By Associated Press)

Washington, March 24—Great concern was evidenced here to-day in official and diplomatic quarters over the news of the seizure of the government in Hungary by the Bolshevik regime, which has announced its advent by declaring a state of war with the Entente Powers and seeking alliance with the Russian Bolsheviks.

No one in authority would attempt to forecast a result or to discuss measures which might be adopted by the Associated Powers, chiefly because virtually all the information received here was by press dispatches and State Departments so far is without official advice on the subject.

With President Wilson and Secretary Lansing in Paris, the attitude of the American government toward any measure that may be proposed will be determined and announced there.

(By Associated Press)

London, March 24—Hungary's adoption of Bolshevism is regarded as serious by the Anglo-French press chiefly as endangering the efforts of the Entente to fill up Rumanian, Polish, and the Czech-Slovak states as bulwarks against German domination of central Europe. All of these three states are menaced by advancing Bolshevik armies.

According to a Vienna dispatch it was the establishment of a neutral zone on the Hungarian-Rumanian frontier which the Peace Conference had decided upon that precipitated the crisis. This zone was intended to make Hungary desist from an attack on Rumania and to close the gap between Rumania and Poland.

Statements issued at Budapest accused the Entente of forming a revolution, but the crisis was held here to be due to the occupation of parts of Hungary by Czech-Slovaks and Rumanians.

POLAND CAUSES APPREHENSION

Problem of Corridor to the Sea Puzzles Peace Conference. Wilson is Satisfied.

MONROE DOCTRINE SAFE

Former Attorney General Says Instrument is Protected as it now Stands by League Draft.

Paris, March 24—When the Council of Great Powers met Saturday it was in an atmosphere of considerable apprehension over Poland, which is the chief subject of discussion. This is not on account of Poland itself, but of differences which have arisen affecting the fundamental question of nationality to which President Wilson has given his strong approval and also his thirteenth "point," which called for an independent Polish state with access to the sea.

This last clause has introduced an issue on which there is a wide divergence of views. A committee, under the chairmanship of Jules Cambon, with Sir William Tyrrell as the British member, and Dr. Robert H. Lord as the American, has reported the plan giving Poland this access to the sea by means of a "corridor" 60 miles wide, running across East Prussia. But the effect of this concession is to place about 1,500,000 Germans within the new Poland and to detach the easternmost part of Prussia from Germany.

Premier Lloyd George has taken the view that the denationalization of a large body of Germans would cause such discontent as would be likely to bring on another war, and it is understood that President Wilson also is not entirely satisfied with the proposal. M. Cambon's committee, therefore, has been asked to revise the plan, and this revision is now under discussion. The committee, nevertheless, is said to adhere to its original plan for a wide corridor.

Orlando's Absence

Comment has been excited by the absence of Premier Orlando, of Italy, from conferences held recently by President Wilson and premiers of other countries. It is supposed, however, that he refrained from attending the meetings because the representatives of the other Allied countries desired to discuss the settlement of the Austrian-Italian question privately, knowing well Premier Orlando's position in the matter.

Because it might establish a precedent for Italy's claim to Fiume, the various boundary Commissioners have been cautious in treating the status of Danzig and Lemberg, which involves the right of self-determination. The Supreme Council also resumed consideration of the western boundary of Poland, and the Italian action may influence the decision of the council on that question.

Monroe Doctrine Safe

Thomas W. Gregory, former Attorney General of the United States, who is advising the Peace Conference Commission on the League of Nations with reference to the legal phases of proposed amendments to the covenant, takes the view that it is not necessary to introduce a specific amendment affirming the Monroe Doctrine. He holds that the doctrine is sufficiently protected by the instrument as it stands, but as a matter of expediency he sees no objection to introducing a general proviso which would safeguard the doctrine without specifically mentioning it, as a specific mention would introduce a controversy over the specific wants of various states.

WILSON VISITS FRENCH FIELDS

Party See Site of Huge Gun that Fired on Paris. Peasants Present Flowers.

Paris, March 24—President Wilson, accompanied by Mrs. Wilson; Miss Benham, Mrs. Wilson's secretary, and Rear Admiral Grayson, spent the day visiting Soissons, the Chemin des Dames, Coucy-le-Chateau, Chauny, Noyon, Montdidier and the neighboring regions. The President followed with the greatest interest the movement of armies in those regions, and received a very vivid impression of the havoc that had been wrought there. On his return to Paris he said:

"The day has been very instructive to me. It has been in many ways exceedingly painful, because what I saw was deeply distressing. But it has enabled me to have a fuller conception than ever of the extraordinary suffering and hardships of the people of France in the baptism of cruel fire through which they have passed."

At one place a pleasant incident occurred. The President's car stopped to get oil; and a little group of people of the village, together with some who had driven out from Montdidier, gathered around the car and chatted. The President and Mrs. Wilson were presented with several bouquets of flowers brought by children.

The party had lunch at a half-repaired inn at Soissons, where a great crowd of poilus gathered to meet the President. The party also visited the site of the "Big Bertha," which a year ago Sunday opened fire on Paris.

TENTH WEEK OF SESSION

Legislature has Largest Calendar of any Week so Far.

Pennsylvania's Legislature will enter upon its tenth week of actual sessions to-night with the largest calendars of any Monday this year. Sixty bills, the majority of them second reading are listed for the House, while over fifty are on the Senate calendar.

It is probable that this week some determination may be reached regarding the date for final adjournment which is generally believed will be within sixty days, probably on May 5. If this date is agreed upon introduction of bills will probably stop in the House the middle of April.

Speaker Spangler plans to call upon the chairman of the House committee to prepare for the wind-up as in a short time appropriation bills will commence to appear on the calendars. The list of charities asking State funds is being made up.

Considerable attention will be given in both branches during the coming week to bills of a political character as hearings are scheduled.

EX-KAISER THREATENED

Friends Warn him of Menacing Peril. Extra Guards Placed.

Amerongen, March 24—There was a state of the extreme alertness around the von Bentinck Castle in consequence of the receipt by the former German Emperor Friday evening of two violently threatening letters, one emanating from Amsterdam and the other from the Belgian frontier and also a telegram from a friend warning him of menacing peril.

All the Dutch gendarmes watching over the ex-emperor's welfare were kept on duty, instead of half their number being allowed their accustomed rest. Saturday morning all the garden paths in the neighborhood of the shed where William Hohenzollern was engaged in sawing wood, were constantly patrolled by armed guards, while even outside the walls of the castle gendarmes were carrying loaded rifles.

One man was watching each of the four sides of the castle and other precautions were taken to insure safety.

PORT OF MISSING MEN

Hundreds of Fighters Supposed Lost Return to Families.

Washington, March 24—From out of the "Port of Missing Men," hundreds of fighters believed lost by their families are coming back to make the home circle complete once again.

In 32 newspapers published at debarkation and reconstruction hospitals for the benefit of returning soldiers, there is printed in every issue a column of inquiries from relatives, which is known as the "Port of Missing Men," because it deals with those whom the currents of war carried beyond the reach of family and friends. More than 10,000 such inquiries have been received. The column is scanned daily by thousands of readers, eager to give the latest knowledge of missing comrades.

The "Port of Missing Men" column is open to relatives without charge for inquiries.

HUNGARY RULED BY RUSSIAN REDS

New Government Allied with Bolsheviks. Provisioning has Become Impossible.

DEFY GIVEN TO ENTENTE

Proletariat will be Dictator. Russian Army Said to be Advancing in Budapest. Turn to Conference.

Copenhagen, March 24—The new Hungarian government has proclaimed solidarity with the Russian Soviet government and an armed alliance with the proletariat of Russia, according to a dispatch from Budapest dated Saturday.

A dispatch received from Budapest dated Saturday gives the proclamation of the new Hungarian government as follows:

"The proletariat of Hungary from to-day has taken all power in its own hands. By the decision of the Paris conference to occupy Hungary, the provisioning of revolutionary Hungary becomes utterly impossible. Under these circumstances the sole means open for the Hungarian government is a dictatorship of the proletariat."

Joins Russian Reds

"Legislative, executive and judicial authority will be exercised by a dictatorship of the workers, peasants and soldiers' councils. The revolutionary government council will begin forthwith work for the realization of communist socialism."

"The council decrees the socialization of large estates, mines, big industries, banks and transport lines, declares complete solidarity with the Russian Soviet government and offers to contract an armed alliance with the proletariat of Russia."

The proclamation by Count Karolyi announcing the resignation of the Hungarian Cabinet, of which he was the head, after referring to the decision of the Peace Conference at Paris to occupy Hungarian territory, says according to a dispatch from Vienna:

"The Entente mission declared that it intends to regard the demarcation line as the political frontier. The aim of further occupation of the country is manifestly to make Hungary the jumping-off ground and the region of operations against the Russian Soviet army which is fighting on our frontier. The land evacuated by us, however, is to be the pay of the Czech troops by means of whom the Russian Soviet army is to be overcome."

"As provisional President of the Hunvian people's republic, I turn as against the Paris Peace Conference to the proletariat of the world for justice and support."

According to a telegram which the Berlin correspondent of the Budapest Pesti-Naplo says he has received from that city, three Russian envoys already in Budapest declare that a Russian Red Army is now on a line from Brody to Stanislaw and is advancing on Lemberg, approximately 75 miles distant. This army, the telegram continues, is expected to arrive in Budapest within a fortnight.

Mexican Border States Planning Renewal of Famous Sport.

Brownsville, Texas, March 24—A revival of bull fighting is planned by residents in some of the Mexican states along the border.

Reports say the people of Matamoros, across the Rio Grande from here, are arranging for reconstruction of the famous bull ring there and have applied to the Governor of Tamaulipas for authority to proceed. It is planned to hold a bull fight in a temporary arena on May 5, the anniversary of the victory of Mexican arms over the French at Puebla.

Bull fighting in Matamoros was discontinued six years ago. The arena, one the finest in the republic, was destroyed by Carranza's adherents when Matamoros was taken by the forces under General Blanco. The federal forces made their last stand in the bull ring.

Bull fights were abolished in the republic by decree of General Carranza as soon as he became president. Later the governors of the respective states were permitted to allow or prohibit the fights.

Years ago many Americans were attracted to bull fights in the towns across the border and the railroads gave reduced rates.

SOLDIERS ORDERED OUT

Four discharged soldiers and two civilians under whose direction the soldiers were canvassing York for orders for a "Welcome Home" sheet which they are selling at twenty five cents each, were ordered out of the city by Mayor E. S. Hugentugler. The Mayor considered the sale of the sheet at the price an imposition on the public.

BILL PROPOSING VOLUNTEER COPS

Plan to Make War Time Police System Permanent Throughout the State.

An extension of the war-time volunteer service system in the counties of Pennsylvania is proposed in a bill introduced in the Senate by T. Larry Eyre, of Chester.

The bill authorizes Governor Sproul to appoint volunteer police in every county of the state with equal powers of policemen under control of the municipalities.

The bill was prepared by Attorney General William I. Schaffer and will have the backing of the administration.

The bill authorizes the governor to appoint as many volunteer police officers "as he may deem necessary." They are to be made under the general supervision and control of the council of public welfare of which former Lieutenant Governor Frank B. McClain is the directing head. But this provision is added: "When engaged in suppression of riots, tumults, the protection and preservation of the public peace and safety, or of public or private property, the volunteer police shall be under the direction and command of the duly constituted police department or police commission in such cities, boroughs, and townships where the same exists."

ALLIES URGED TO RAISE BLOCKADE

New York Editor Says Germany is Drifting Rapidly Toward Bolshevism.

Paris, March 24—Oswald Garrison Villard, of New York, editor of the Nation, has just returned to Paris from a week's observation of conditions in Germany and made a report to the American Peace commissioners and the British prime minister, David Lloyd George by which they are said to have been profoundly impressed.

"The drift toward Bolshevism is rapid in Germany," said Mr. Villard to-day, "and it can be stayed only by prompt food relief and the lifting of the blockade so that trade may begin again and the idle German factories may receive raw materials as fast as arrangements can be made to pay for them."

"It is positively stated in Berlin that there will be a few trains moving in six weeks because of the total exhaustion of the stock of lubricants. The people are worn down and helpless, and the masses are very bitter against the old regime, and the officers dare not show themselves in the streets of Munich and carry revolvers in Berlin for self-protection."

"Many people are still ignorant of the atrocities of the German troops in France, Belgium and Rumania, but soldiers returning from these countries are telling 'the truth and openly accuse their officers of wholesale thefts and deliberate cruelties. These statements are heard every day on the railway trains and on the street corners."

"The Ebert government owes its continued existence in part to the lack of strong leaders on the other side for the people to turn to. Politically, conditions are worse in Bavaria, where the food conditions are better. Everything is quiet in Saxony, though lack of food is greatest there."

INDIANS FIND NEW DRINK

Peyote Declared to be Wildest Booze Ever Distilled.

Bemidjia, Minn., March 24—"Peyote"—no relation to coyote—is causing State and Government officials in the Cass Lake Indian district a great deal of trouble and worry.

The reservation is bone-dry. Peyote is a liquor officially listed as poisonous. Indian Agents C. E. Benson and W. J. Johnson say it is the "hottest, wildest booze that ever gurgled down the throat of a human being." It has been barred from the mails.

Despite secrecy in distilling the liquor, Government agents are said to have discovered that a Mexican plant is used in the manufacture. The plant is believed to be brewed with grains ordinarily used in making moonshine whisky.

Mrs. Frank Bobolink and Mrs. Joe Butterly became seriously ill after taking a swallow of the fiery stuff, according to a reservation report.

FORD PLANT NEAR KEYSER

Will Manufacture New Brand of Well Known Car.

Cumberland, Md., March 24—Henry Ford has purchased land near Black Oak Bottom, Maryland, just about three miles east of Keyser, W. Va., where, it is stated, he will erect a plant for the manufacture of Ford cars of the newest brand. It is stated that Ford will make this one of his leading plants.

STOMACH UPSET?
Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.
Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

AUNT MARY KELLY'S NIECE IS THANKFUL

Mrs. Lizzie Loughney, 2950 Reed St., Philadelphia, is certain she has cause for many thanksgivings. "After baby was born," she says, "I developed a rather severe attack of acute indigestion. It seemed just like a lump formed inside my stomach. My appetite became poor and my sleep was broken with bad dreams. I became nervous and badly run down. My aunt, Mary Kelly, told me about Tanlac. The first bottle gave me relief. This is my sixth bottle and I've grown steadily better ever since. Tanlac's a real tonic."

The genuine J. I. Gore Co. Tanlac is now sold here at the People's Drug Store.

Owners Are Better Guides than Specifications

People become interested in Overland Cars through the Praise of Owners. They reason logically that a car enjoying such loyal owner-endorsement, must live up to its reputation for all round satisfaction. It is the completeness with which Overland Cars meet every requirement, plus our policy of placing owner-satisfaction above all else, that creates such universal owner-appreciation. The cars make friends of their owners. Owners make owners of their friends. In this way the sale of Overland Model 90 car alone already has grown to more than one hundred and fifteen thousand.

(Medical Advertising)**DOCTOR PRESCRIBED VINOL**

For this poor mother who could "hardly drag around"

Glasgow, Ky.—"I am a farmer's wife and suffering from a nervous breakdown—loss of flesh and poor appetite so I could hardly drag around and do the work for my family. My doctor prescribed Vinol. It not only made me well and strong but I have gained in weight." Mrs. S. M.

The reason Vinol proved such a wonderful strength creator in Mrs. Gray's case is because of the beef and cod liver peptones, iron and manganese peptonates and glycerophosphates combined in a pure, native tonic wine, which makes Vinol the most successful tonic.
